

# Care Zone

Care Zone provides specialized cooling covers and a supportive community to alleviate the physical and mental challenges experienced by cancer patients during chemotherapy.

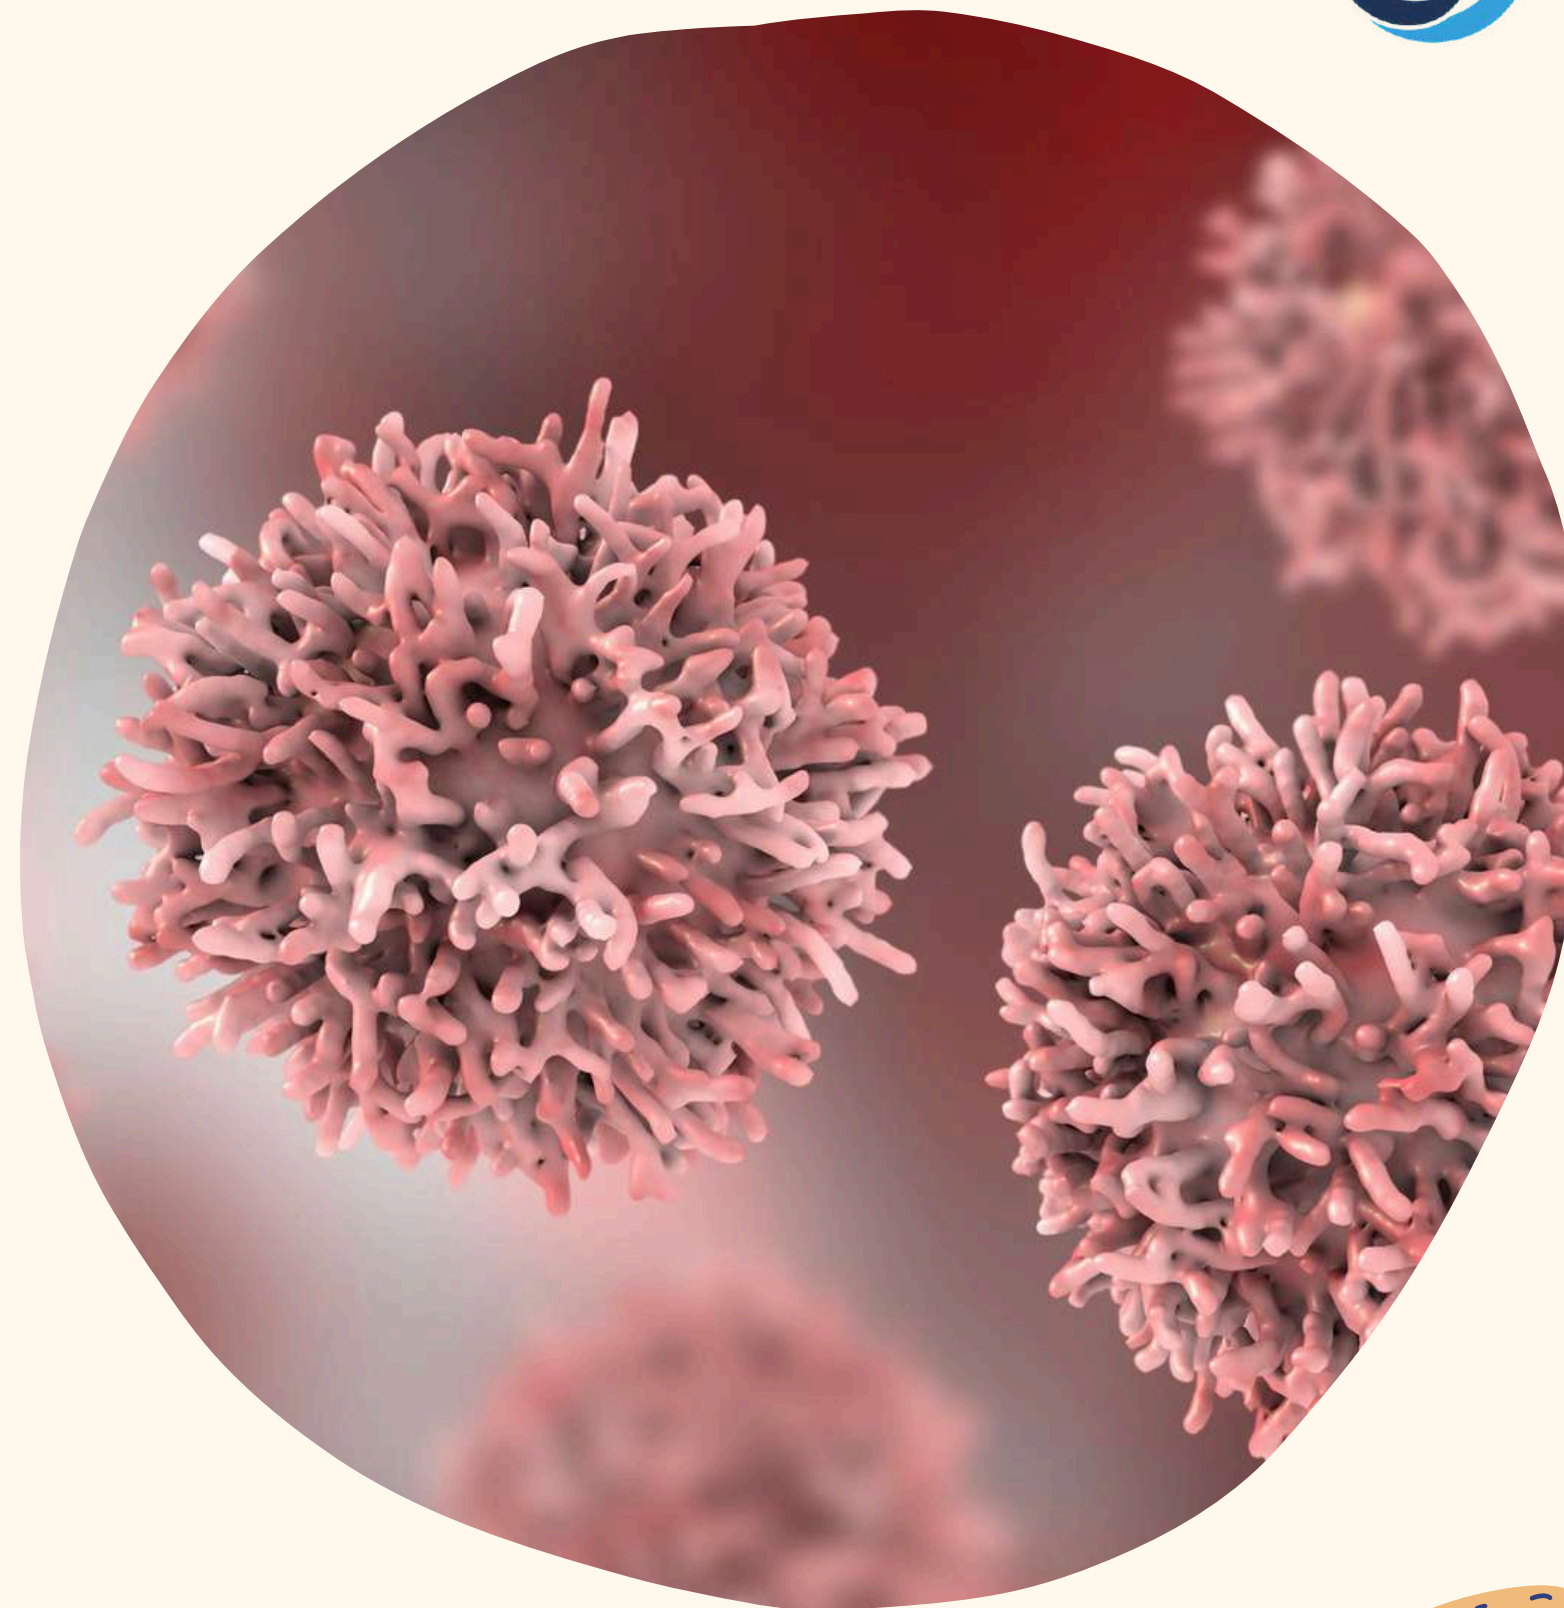

# Product Description

Care Zone introduces a range of specialized cooling covers designed to address the unique challenges faced by cancer patients undergoing chemotherapy. Our meticulously crafted cooling covers cater to specific areas such as the head, eyebrows, and fingertips, where patients often experience intense heat and discomfort.

Going beyond mere physical relief, our products incorporate cutting-edge technologies, including microcontroller technology, ultraviolet light disinfection, and artificial intelligence-driven features such as pulse calculation sensors and blood oxygen control. This holistic approach not only aims to provide tailored comfort but also establishes a supportive community environment for patients and their families.

# Features:

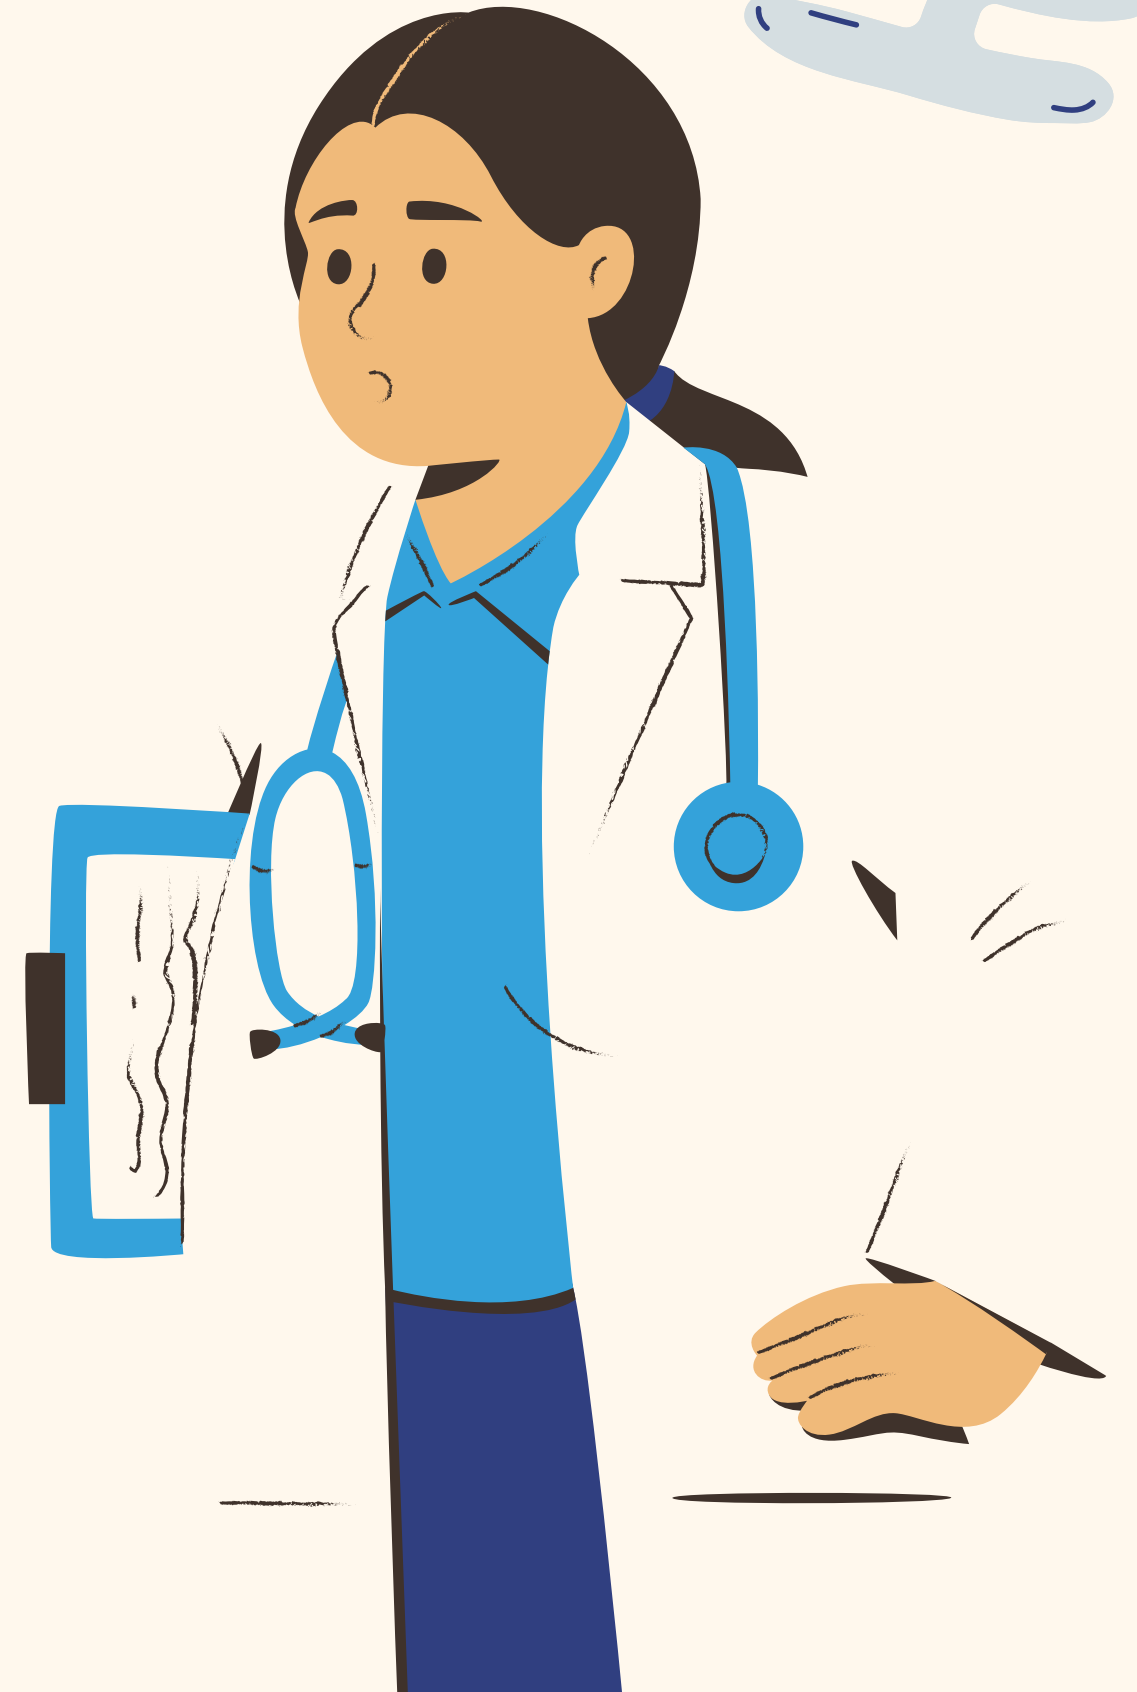

- Cooling Covers
- Modular Design
- Advanced Technologies
- Supportive Community

# Innovation points of Care Zone:

- Tailored for head, eyebrows, and fingertips.
- Customizable modules for individual needs.
- Integration of microcontrollers and AI for effective pain relief.
- Cooling gloves, slippers, and complementary pieces.
- Post-sale services for emotional support and awareness.

# Market Size

The global medical devices market exhibited substantial growth, reaching nearly \$456.8 billion in 2020, with a 3.5% compound annual growth rate (CAGR) since 2015. Forecasts predict a continued upward trajectory, expecting the market to soar to \$62.0 billion by 2025 at a robust rate of 7.7%. In Canada, the Medical Technology market is projected to achieve revenues of US\$12.09 billion in 2023, with Medical Devices being the largest segment, accounting for a projected market volume of US\$9.90 billion in the same year. The vast landscape, boasting approximately 2 million different types of medical devices across more than 7,000 general device groups globally, offers considerable economic opportunities for startup development.
